

Reclaimed Teak Siding Specifications

Product Description

Indo Teak Design's reclaimed teak siding has the rich color, tight grain, and legendary durability only found in centuries-old teak. Plantation-grown teak cannot compare to old-growth and reclaimed Indonesian Teak, in either looks or durability. The reclamation of this old-growth teak helps preserve standing teak forests and gives these amazing woods another lifetime of use and appreciation.

Source

Reclaimed Teak from structures & buildings slated for demolition throughout Indonesia

Species

Tectona Grandis.
